MONITORING-AS-A-SERVICE

Security:
Datwyler takes security very seriously. When commissioning the edge monitoring infrastructure we therefore rely on state-of-the-art technologies. We incorporate these into your existing network so that we can safely and efficiently connect your infrastructure to be monitored to our monitoring system.

Services included:
- On-site visit
- Project management

Your benefit:
You no longer need to worry about anything to do with the monitoring infrastructure.

Datwyler IT Infra provides you with a professional all-inclusive monitoring service from the Cloud. The monitoring system is comprehensively configured, updated and maintained by us. You, the customer, don't need to worry about installation, maintenance or updates. You get a fully functional monitoring system at a fixed monthly price.

The service provided by Datwyler comprises:
- Configuration of the monitoring infrastructure to the latest standards
- Continuous adaptation and optimisation
- Maintenance of all components to service level
- Regular service reporting
- Guaranteed response times

Hardware included:
Edgetesting on site for the collection of monitoring data

WE WILL BE HAPPY TO ADVISE YOU PERSONALLY.

Just call us or send us an email and we will get back to you immediately:
